

8th World Congress and Expo on Applied Microbiology scheduled on September 28-29, 2020 at Barcelona, Spain

Jos van der Vossen

TNO Quality of Life, Netherlands, E-mail: jos.vandervossen@gmail.com

Applied Microbiology-2020 aimed to provide an opportunity for all the Attendees to meet, interact and exchange new ideas in the various areas of Microbiology.

Innovative and Emerging applications of Microbiology have significantly reshaped the Manufacturing, Biotechnology, Pharmaceutical, Environmental and Electronic markets. In-depth market analysis of these technologies as well as trends, forecasts and profiles of major players from different analytical reports from various analysts prove how valuable the growth of microbiology has become. Efficiency of Microbiology has led to great and had a great environmental impact.

“8th World Congress and Expo on Applied Microbiology” is organizing an outstanding Scientific Exhibition/Program and anticipates the world's leading specialists who are involved in the field of Microbiology and Biotechnology. **Applied Microbiology 2020** is an exciting opportunity to showcase the new technology, the new products of your company, and/or the service your Industry may offer to a broad international audience. This conference enables the sponsors a unique chance to choose from a pool of outstanding scopes for expansion of their business. All these factors combined and several more make Applied Microbiology 2020 a “must attend” [Microbiology Conference](#).

Applied Microbiology 2019 witnessed an amalgamation of peerless speakers who enlightened the crowd with their knowledge and confabulated on various new-fangled topics related to the field of Microbiology and Biotechnology. **6th World Congress and Expo on Applied Microbiology, 2019** was inaugurated and followed keynote session by Hiroshi Ohrai, Yokohama University of Pharmacy, Japan with the title “EFdA: An extremely excellent anti-HIV nucleoside from design to the current clinical trial results” and by Ali O Kilic, Karadeniz Technical University with the title “Antibacterial properties of three newly identified recombinant Staphylococcus aureus phage endolysins”.

With the grand success of Applied Microbiology 2019, we are glad to announce our next upcoming conference Applied Microbiology 2020 at Barcelona, Spain on

September 28-29, 2020. The conference will serve as a platform to bring together leading Researchers with different specialties such as Microbiology, Biotechnology etc. Applied Microbiology Congress will discuss on the topics such as Microbiology and Biotechnology, Medicinal Chemistry and Bio molecular Science, [Microbial Ecology](#) and Next Gen Sequencing, Bioprocess engineering and Systems Biology, Regenerative Medicine and Stem Cell technology, Nano biotechnology, Data Integrity, Bioinformatics and new predictions in the **Applied Microbiology 2020**.

Microbiology market size will grow from USD 3.74 Billion in 2017 to USD 7.26 Billion by 2023, at an estimated CAGR of 11.7%. The base year considered for the study is 2017, and the market size is projected from 2019 to 2023.

Applied Microbiology Conferences going to be held during February, 2020 to December, 2020 at various cities in Europe (London, Barcelona, Madrid, Valencia, Rome, Milan, Berlin, Frankfurt, Vienna, Zurich, Dublin, Edinburgh.... And Many More..!!!
